Solid grade laminate cistern panelling

Details

Continental manufacture bespoke cistern panelling to suit your changing rooms.

- Designed to complement our WC cubicles
- Uses the same 13mm solid grade laminate panelling as the cubicles
- Mounted onto a bespoke softwood timber frame using hidden fixings
- Panels are removable to permit access to the cistern
- We manufacture all items on a bespoke basis to suit your installation and dimension requirements
- All materials and fittings have been chosen for their strength and resistance to water and humidity
- Our designers will be delighted to help advise on the most attractive and cost effective layouts
- Installation and after sales service is carried out by our own teams of experienced technicians
- We work closely with your chosen plumbing contractor to ensure we can assist in providing the appropriate elements of the panelling at a first fix and then we complete the installation at a second fix once the sanitaryware is in place
