

Gymnastics landing mat - carpet surface - FIG Approved

02308A03CB

Details

Ref. 308 carpet surface competition landing mat with velcro flaps for linking

This mat is manufactured from a core of foam layers with different hardnesses and densities to provide the stringent rebound and deflection characteristics specified by the FIG for gymnastic landing mats.

We can manufacture these mats in any size and with cut-outs or recesses to suit any gymnastics equipment or room shape - please contact us with your requirements and we will be pleased to provide a bespoke quotation.

Available in a choice of standard colourways and dimensions:

- Carpet surface: Grey, Green or Blue
- PVC sides and underside: Red, Green or Blue
- Standard dimensions: 3m x 2m, 2m x 1.5m (other dimensions available on special order - please contact us for pricing)

Should you have a specific colour requirement (e.g. to match your team colours) we can supply these mats in virtually any colour of PVC and carpet. There are minimum order quantities that may apply to both the PVC and carpet, but if you are fitting out a full new training facility it may be that the minimum order quantities become irrelevant and you can have a look and feel unique to your facility. Our standard colours are shown below, but [for details of our full colour ranges please see our PVC and carpet colour range here.](#)
