

Trampoline - Competition model - 101 Series

230101XXXX

Details

101 series competition trampoline. This trampoline has been certified for use at the very highest levels of trampolining.

Manufactured from heavy duty steel tubing, epoxy powder coated. Easily folded and transported. Supplied with coverall frame pads incorporating flip-out removable sections to reduce creasing of the pads whilst the trampoline is folded, and fixed height roller-stands.

The 101 series also incorporates riser / elevator springs and straps. These are designed to hold the coverall pads slightly raised above the springs ensuring the weight of the pads does not affect the performance of the springs and bed in any way. In addition, by holding the pads clear of the springs, the noise created by the trampoline gymnast is reduced as the pads and springs do not hit against each other.

This trampoline is supplied with either fixed height or hydraulically assisted "Safelift" roller stands. Safelift stands are a strongly recommended optional extra for this larger size heavier trampoline as they make set-up and fold-away easier and safer.

Dimensions:

- Frame size: 5.2m x 3.05m x 1.15m.
- Folded size: 3.05m x 2.2m x 0.8m.
- Bed size: 4.28m x 2.14m

Height of trampoline when on stands:

- fixed height stands - 2,200mm
- Safelift stands (high position) - 2,225mm, Safelift stands (low position) - 1,995mm

Options:

- 6mm x 4mm web bed with 126 steel springs
- 6mm x 6mm web bed with 118 steel springs

- Hydraulically assisted "Safelift" roller stands in place of the standard fixed height roller stands

Delivery:

We deliver trampolines to your premises using one driver. Trampolines cannot be lifted by one person so level or ramped access to your facility is required. Should level or ramped access not be available we can assist your staff to manoeuvre the trampoline into your facility if possible. If access is up or down stairs or similar then please contact us before ordering as we will need to supply the trampoline unassembled and assemble it inside your facility for which there is an additional charge. If we deliver a trampoline and have not been informed in writing in advance that on-site assembly is required, the trampoline will be left at the entrance to your facility and we will provide a quotation to disassemble and reassemble it at a later date.
