

Twisting belt with leg straps

01320B0XXX

Details

Padded woven nylon inner fixed to a cast aluminium frame with integral ball-bearing runners. Can be used by two spotters or from spotting rigs.

This belt permits the user to perform both somersaults and twists.

This design incorporates under leg straps

This model has been superseded so is currently available in one size only in limited stock:

- Small - waist 64-76cm (25"-30")

Please note that the straps shown in the image are used by spotters if the belt is used without a spotting rig and must be purchased as an optional extra. The straps are provided with a spotting rig installation and are not required if purchasing a new or spare belt for an existing rig.
