

55 Series standard trampette

230155XXXX

Details

Continental standard trampettes are constructed from heavy guage steel tubing and finished in epoxy powder coating. Incorporating adjustable front and back legs. Supplied with a coverall frame pad and a choice of spring and bed type. Also available with integral wheels attached to the frame to enable the trampette to be moved easily to and from storage by one person.

- Frame size 1.1m x 1.1m
- Bed size 0.6m x 0.6m

The trampette is available with various options:

Spring type:

- Steel springs (higher performance) - **our most popular spec**
- Rubber cables (basic performance - not available with a 6mm web bed)

Bed type:

- 6mm web bed (ultimate performance)
- 13mm web bed (high performance) - **our most popular spec**
- 25mm web bed (medium performance)
- UltraMesh / Permatron dual layer bed in grey (anti-slip bed with no toe-traps to suit bare feet use, but ideal for users wearing socks as the material provides additional grip not provided by traditional solid nylon beds)

Integral wheels:

- NO integral wheels
- WITH integral wheels on the front leg leaf to enable the trampette to be easily lifted and rolled to and from storage by one person - **our most popular spec**
