Timber storming stands

07526A0XXX

Details

Traditional timber storming stands for use with PE linking and bridging apparatus.

Stable triangular construction enables linking at 3 different heights using linking apparatus available separately such as planks, ladders and poles.

The stands incorporate non-marking rubber feet on all sides.

Available in two sizes, each incorporating linking bars at three different heights:

- 0.6m (2') high
- 0.9m (3') high

And in five colours:

Clear lacquered timber

- Red
- Blue
- Green
- Yellow

SKU	Options	Available Colours
