Details

Traditional timber PE plank with hooks on one end for linking activities.

The planks incorporate timber side rails and durable nylon hooks at one end to enable the planks to be secured to other apparatus such as climbing frames, nesting tables, trestles etc. for linking and bridging.

The planks are 25cm wide and are available in three lengths:

- 2.7m (9') long
- 3.0m (10') long
- 3.4m (11') long
