

Timber PE plank with hooks

07530A0XXX

Details

Traditional timber PE plank with hooks on one end for linking activities.

The planks incorporate timber side rails and durable nylon hooks at one end to enable the planks to be secured to other apparatus such as climbing frames, nesting tables, trestles etc. for linking and bridging.

The planks are 25cm wide and are available in three lengths:

- 2.7m (9') long
- 3.0m (10') long
- 3.4m (11') long

Please note: these planks have hooks at one end only for hooking onto climbing frames, nesting tables, wall bars and similar apparatus with the other end of the plank being designed to rest on the floor or an exercise mat

SKU	Options	Available Colours
