Steel bar box

Details

Steel bar box for vaulting and linking with sloping surfaces such as benches and planks

Manufactured from epoxy powder coated steel in red with telescopic galvanised inner legs. The tops are upholstered in high density durable chipfoam and a heavy duty seal grey polypropylene carpet. Supplied with large non-marking rubber feet.

Telescopic legs make the bar box adjustable from 0.7m to 1.01m (2'4" to 3'4") in height
