# Trestles

09406AXXXX

## Details

Trestles are a key component to support various pieces of linking and bridging apparatus. Manufactured from epoxy powder coated steel in red.

Lightweight yet stable, Continental trestles provide a positive base for all linking and bridging activities.

Available in two heights:

- 0.9m (3')
- 1.8m (6')

1.8m high (6') trestles are hinged / folding for ease of storage.

0.9m high (3') trestles are available either hinged / folding or fixed for stacking.

| SKU | Options | Available Colours |
|---|---|---|
| 09406B01AA | 0.9m (3') high | N/A |
| 09406A01AA | 0.9m (3') high | N/A |
| 09406B02AA | 1.8m (6') high | N/A |
