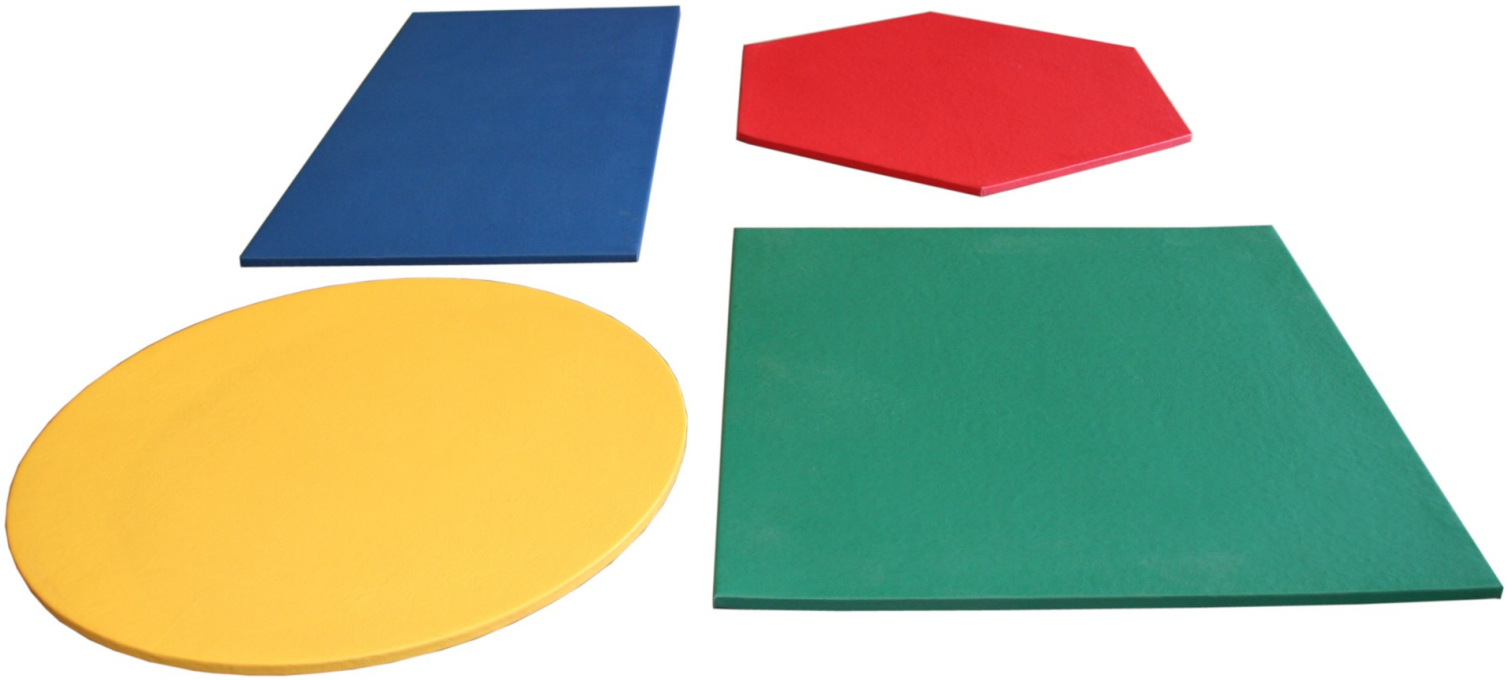
PE mats - Geometric shape mats



Details

A variety of shapes and colours in vinyl covered 25mm (1") fire retardant chipfoam with a latex anti-slip base.

Mats are supplied as a set of four in the following shapes and colours:

- blue oblong
- red hexagon
- yellow circle
- green square

The mats add another learning dimension to PE lessons, enabling the PE teacher to introduce the concept of different movements linked to the different shapes and / or colours of the mat.

Children find the mats more interesting than standard mats, they present additional flexibility and more options to the teacher and they certainly brighten up a school hall !
