

Lytafold mini - concertina mat

03297G01AA

Details

These folding mats are great for young children, providing a fold-out runway mat for rolling, running, games and fun activities.

The mats have bright PVC covers and contain a very lightweight but hard wearing PU foam meaning the total weight of a set is only 1.7kg making them easy for toddlers and up to carry by themselves.

Each section measures 600mm x 400mm, giving a total matted area of approx. 1m². The mat is 22mm thick.

The mats can be made in the following orientations:

hinged on the short side to give a folded out mat 400mm x 2.4m

hinged on the long side to give a folded out mat 600mm x 1.6m

They come in a range of colours:

- all red sections
- all blue sections
- all yellow sections
- all green sections
- multicoloured (one section each of red, green, blue and yellow)
