Wall bar installation

WALLBARINST-WB0X

Details

We sell wall bars supply only for self-installation, however most customers prefer to utilise the experience and skills of Continental's team of in-house installation engineers to install their wall bars.

Once you have added your wall bars to your basket, please add the installation charge. Please make sure you select the same quantity of units and number of bays as you have done for the bars themselves.

The charge for installation will be shown above, but there will be a modest additional "Area Charge" which is based on your distance from our factory. That will be shown at checkout and before you have to commit to your purchase.

SKU	Options	Available Colours
WALLBARINST-WB01	1 bay	N/A
WALLBARINST-WB02	2 bays	N/A
WALLBARINST-WB03	3 bays	N/A
