Gymnastic soft playshape - POMMEL DOME

Details

Manufactured in the UK by Continental, these gymnastic soft playshapes are ideal for commercial gymnastics facilities.

Manufactured from combustion modified foam with a bright, shiny multi-coloured PVC cover these wipe clean playshapes are great fun for children learning gymnastics and movement.

The pommel dome dimensions are: Diameter 1.0m, h 0.5m

The dome has a sewn in pvc skirt at the bottom edge which is designed so that the dome can be positioned snugly on top of the ring playshape to increase its height.
