

Thumbscrew for gamespost

Details

Gamespost thumbscrew to fix gamesposts to a floor anchor.

Standard length to suit a floor that does NOT have removable access covers is an M12 x 70mm long thread (96mm overall length). This length will be supplied if we do not receive alternative instructions.

If you require an extended thumbscrew to suit a recessed anchor under a removable access / bushing cover please place your order and then contact us to confirm the required thread length.
