Indoor five-a-side football goals

08420AXXXX

Details

Indoor five a side football goals. Manufactured from epoxy powder coated steel in white. Supplied in pairs complete with nets.

The goals have folding side frames and retractable wheels to enable the goals to be moved easily to and from storage

Available in three standard dimensions:

- 2.4m (8') long x 1.2m (4') high - for mini play
- 3.6m (12') long x 1.2m (4') high - for junior / senior play - our most popular size for secondary schools, universities and leisure centres
- 4.9m (16') long x 1.2m (4') high - for senior play - wider senior goals required by certain adult five a side teams, although most teams prever the 3.6m versions

Five a side goals must be secured when in use to prevent the goal toppling. We recommend either a wall or floor securing system which is available at additional cost - please contact us for details.

SKU	Options	Available Colours
