# Indoor hockey goals

## Details

Indoor hockey goals.

These goals are manufactured from 50mm square tubing for stability and strength.

The goals are supplied complete with:

- a pair of white polypropylene nets
- 18" wooden backboards painted dark green
- a fold-over retractable wheeling system to enable easy removal of the goals when not in use.

Steelwork is epoxy powder coated in white.

The goals are regulation indoor hockey size: 3m long x 2m high.

Priced per PAIR of goals and nets

The goals must be secured when in use, using either Continental's wall anchor or floor anchor goal securing system
