

Beam leg padding

Details

Pre-formed carpet covered foam beam leg protectors complete with VELCRO® Fasteners.

Supplied as a pair to suit one Continental FIG approved ladies balance beam.

Supplied upholstered in grey carpet as standard (but also available in blue, green, black on special order)

The padding starts 200mm above the bottom of the beam legs to allow for 200mm thick FIG approved surrounding landing mats.

The padding consists of 30mm of Tribond high-resilience foam, flame bonded to a layer of hard wearing 5mm thick polypropylene carpet.
