

Fold up coaching platform for asymmetric (uneven) bars & high bars

01273B01AA

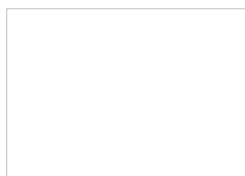

Details

Ref. 273B self-retracting counterbalanced bolt-on platform available in left or right handed versions.

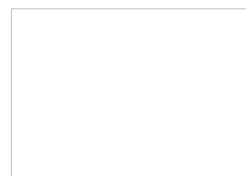

A "right hand" platform folds to the right of the upright as you get on the platform.

A "left hand" platform folds to the left of the upright as you get on the platform.

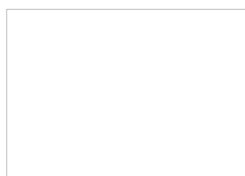

The images below help you to decide whether you want a right hand or left hand version of the platform:

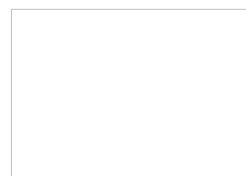

Right handed platform fitted externally

Right handed platform fitted internally

Left handed platform fitted externally

Left handed platform fitted internally

This platform is suitable for Continental deluxe or standard uneven / asymmetric bars and Continental competition or club high bar, or a Continental ring frame. To ensure we supply the correct fixing brackets please put in the notes to your order which piece of apparatus you intend to fix the platform to.

The platform attached easily to the upright using the supplied U-bolts. The fixing bracket is then padded using the supplied foam and carpet pad.

The carpet covered platform is 390mm wide x 560mm long.

The simple weighted counterbalance mechanism auto-retracts the platform when no-one is standing on it.

Please note that the platform cannot be fixed to the low bar uprights on a set of uneven bars.
