Sprung vault trainer

Details

Sprung Vault Trainer.

Designed in conjunction with British Gymnastics at Lilleshall National Sports Centre, this vault trainer is an exciting development for vault coaching and practice.

Manufactured from a double width epoxy powder coated frame, with a high density chipfoam padded top upholstered in suedette and red pvc.

Also available is a set of useful coaching blocks onto which the sprung vault trainer can be placed to provide different heights for training. These coaching blocks are not included in the price of the trainer and must be purchased separately.
