SPIETH - Soft beam protection pad

141408X

Details

This new soft beam protection padding from Spieth is available in two lengths:

- 1m
- 2m

The pad is made from artificial leather with non-woven material surface and is filled with special foam featuring good shock absorption.

The pad has a non-slip cover on the inside and is simple to attach using the integral Velcro® tabs.

Ideal for learning and practising new or difficult exercises

Highlights

- Sturdy cover
- Soft yet stable filling
- Fits all balancing beams
- Reduces the peak loads
