

SPIETH - beam surface enlargement

141410X

Details

This beam enlargement device widens the surface of the beam from 10cm to 20cm.

Attached to the beam using the supplied VELCRO® Fasteners.

Ideal for confidence building when learning new moves.

Allows more repetition of new moves due to the reduced likelihood of falls.

It is available in two lengths:

- 2m
- 3m

Both are 20cm wide (standard beam is 10cm wide)

SKU	Options	Available Colours
141410X-3m	3m	N/A
