SPIETH - Springboard "Moscow 5"

Details

FIG Approved

The "Moscow 5" Springboard from Spieth for competition use. FIG Approved "SOFT" springboard.

This FIG approved springboard features a carbon fibre sandwich top and five silver chrome silicon pyramid springs.

It includes removable transport castors to enable the board to be moved to and from storage easily.

The board results in very little energy loss with an equal rebound over the entire surface

This FIG approved competition springboard is certified as a "Soft" board which is designed for women's vaulting and men's backwards vaulting.

Designed for experienced vaulters weighing 40-75 kg
