

SPIETH - Soft landing block

15696XX

Details

These SPIETH soft landing blocks provide an extra-cushioned soft landing for dismount from gymnastics apparatus. Use them to create a raised "pit" for an extra soft landing

Made from three polyether foam layers each with their own specific impact absorption

The basic setup is comparable to closed landing pit

Fitted all round with handy-grips for easy transport to and from storage

Useful for artistic and acrobatic gymnastics, trampoline, tumbling, freerunning

All the blocks are 700mm thick and are available in three sizes:

- Small - 2m x 1m
- Medium - 2m x 1.5m
- Large - 3.5m x 2m

And available with a choice of cover to the top section:

- PVC - SMALL and LARGE
- Stretch jersey fabric - MEDIUM and LARGE

Highlights

- Ideal for tumbling locations without landing pits
- May be used to raise the landing level
- Soft top for a comfortable landing
- Rapid positioning using the handy-grips
- Anti-slip underside
