Rebound screen recess infills

Details

The design of your sports hall may incoporate:

- recesses for bleacher seating
- viewing corridors
- entrance or assembly areas

All of these may prevent you providing flat flush sports hall walls that are necessary for five a side and recommended for all activities so as to reduce the risk of balls leaving the field of play, furniture being damaged or people not participating in sport being hit by projectiles.

Continental's sports hall rebound screens are the ideal solution. We can use a combination of wall fixings, floor fixings, gates and infill panels to provide the solution you require.

Furthermore, we offer 36 standard laminate finishes to our rebound boards so we are likely to have boards to suit your colour scheme. Alternatively if you need a bespoke colour, we offer the entire Formica range of laminate finishes which are available at additional cost - please contact us for details.
