Freestyle gymnastics foam blocks

02290Q0XAA

Details

Ideal for Freestyle gymnastics, Parkour and free-running, these foam blocks have an "urban look & feel" to differentiate them from traditional gymnastics equipment.These foam blocks are made from absorbent foam bodies to absorb landing impacts, with a firm top and for standing on, landing on and vaulting over. The longer 2m x 1m block also has two firmer ends to enable it to be used against a wall on its end rather than on its base.

The Freestyle blocks are covered in unique urban black hi-texture, hi-grip, tarmac-effect PVC removable covers.

Available in three sizes:

- 1m x 1m x 0.6mm
- 2m x 1m x 0.6mm
- 1.2m x 1.2m x 1.2m

The blocks can also be used as traditional coaching blocks when not being used for Freestyle or Parkour
