Single sided island unit

29000020XX

Details

Manufactured by Continental bespoke for your facility, these single sided island units are complete with coat hooks, bench seat, backrest and shoe tray or footbar.

The bench slats are available in your choice of two materials, both of which are invisibly fixed to the steel frame with no visible fixings on the top of the slats:

- Three runs of natural solid white beech with clear lacquer
- Two runs of 22m thick solid grade laminate

Standard dimensions are:

- Height: 1670mm
- Depth: 380mm
- Length: any length to suit your requirements
- Hooks: at 300mm centres as standard and 150mm centres at additional cost

Steelwork is epoxy powder coated in a range of standard colours. Click to see our standard range of Solid Grade Laminate and epoxy powder coating colours.

When ordering online, please select the total number of linear metres of benching you require. We will then contact you to obtain drawings or to take measurements of your facility and provide bespoke drawings to suit. If any adjustments to overal lengths are required at that stage we will make an adjustment to the final cost prior to manufacture.

These units are designed to be fixed to the floor using fixings hidden inside the feet, or secured back to the wall and are not suitable for freestanding use.

The price shown above is PER LINEAR METRE and a modest AREA CHARGE will be added to your basket at checkout to reflect the costs of travelling to your site to undertake installation - you can check the Area Charge for your postcode using the pricing box to the right.
