Double sided island unit

29000020ZZ

Details

Manufactured by Continental bespoke for your facility, these double sided island units are complete with coat hooks, bench seat, backrest and shoe tray or footbar.

The bench slats are available in your choice of two materials, both of which are invisibly fixed to the steel framework with no fixings visible on the top of the seating slats:

- Six runs of natural solid white beech with clear lacquer
- Four runs of 22m thick solid grade laminate

Standard dimensions are:

- Height: 1670mm
- Depth: 725mm
- Length: any length to suit your requirements
- Hooks: at 300mm centres as standard and 150mm centres at additional cost

Steelwork is epoxy powder coated in a range of standard colours. Click to see our standard range of Solid Grade Laminate and epoxy powder coating colours.

When ordering online, please select the total number of linear metres of benching you require. We will then contact you to obtain drawings or to take measurements of your facility and provide bespoke drawings to suit. If any adjustments to overal lengths are required at that stage we will make an adjustment to the final cost prior to manufacture.

These units are designed to be fixed to the floor using fixings hidden inside the feet but can be left freestanding if necessary.

The price shown above is PER LINEAR METRE and a modest AREA CHARGE will be added to your basket at checkout to reflect the costs of travelling to your site to undertake installation - you can see the Area Charge for your postcode in the pricing box to the right.
