Wall batten with coat hooks

2900005010XX

Details

These wall battens incorporate wall fixings hidden by the hooks and the hooks are fixed to the battens using tamper-resistant screws.

The hooks are attached at 300mm centres as standard but may be included at 150mm centres at additional cost.

Hooks are epoxy powder coated in a range of standard colours. To see our standard range of Solid Grade Laminate and epoxy powder coating colours please see our colour chart here.

When ordering online, please select the total number of linear metres of batten you require. We will then contact you to obtain drawings or to take measurements of your facility and provide bespoke drawings to suit. If any adjustments to overal lengths are required at that stage we will make an adjustment to the final cost prior to manufacture.

These battens must be fixed to a solid wall.

The price shown above is PER LINEAR METRE and a modest AREA CHARGE will be added to your basket at checkout to reflect the costs of travelling to your site to undertake installation

SKU	Options	Available Colours
2900005010	White beech	N/A
2900005010SGL	Solid grade laminate	N/A
