Steel freestanding tennis posts

24HUTEN10X

Details

A practice freestanding tennis post to suit facilities where sockets cannot be installed. The posts are complete with a net and a centre band adjuster.

Features:

- A new improved design.
- Full regulation net height can be achieved.
- Heavy duty brass winder and pulley wheel.
- Rubber pads protect each surface type.

Specification:

- Uprights made from 76mm diameter steel.
- The steel posts are joined with pre-galvanised Steel box section, Polyester powder coated matte Black.
- The use of pre-galvanised material gives the connecting bars an extra level of protection.
- The powder coated Steel channel connections are plated and come complete with M10 rivnuts.
- The updated connecting method also means the diagonal braces are no longer required.

The posts are avaialable in two versions:

- Freestanding - with an optional trolley available to move the posts (available at additional cost - see the panel to the right)
- Wheelaway - with an integral wheel on each post

Wheelaway posts are powder coated in black. Freestanding posts are available in a choice of two colours:

- Black
- Green

SKU	Options	Available Colours
