# TeamGym tumble track run-up

## Details

This run-up system is designed by PER Redskaber to suit the PE Redskaber / LEG TeamGym tumble track.

The run-up comprises 8 blocks each 2m x 1m x 330mm which are positioned end to end and attached to each other using the integral VELCRO® Fastener flaps to create the official UEG Directive compliant run-up for the TeamGym tuble track.

This 16m run-up is the perfect addition to your PE Redskaber TeamGym tumble track.
