Vault run up carpet and stabilising frame

01336X01AA

Details

Competition run-up system for vault: 23m carpet with a 2m springboard stabilising frame to provide a 25m run-up.

The carpet is a 23m long roll-up chipfoam carpet with latex underside, supplied in two sections with a carpet and VELCRO® joint in the centre, and a 2m long carpet covered timber stabilising frame with graduated markings and high-friction rubber strips to hold the springboard firmly in place.

Overall length is the FIG specified length of 25m for the combined run-up and frame.

The frame and run-up carpet is provided in grey as standard but is also available in green or blue.
