Junior Gym Component - Bungee cables with fittings

Details

This bungee system provides cushioning and rebound for use as a Junior Gym rebounder. The price does not include the padded cover which must be ordered separately.

Continental's range of Junior Gym equipment is modular so you can buy a basic element and then add components to enable you to build the different elements in the range. To enable you to select any additional components the table below shows the number of each component in each element:

	Double rebounder	Single rebounder	Uneven bars	High bar	Parallel bars	Ring-frame
Base rails	2	2	2	2	2	2
Upright outer frame	2	1	2	1	2	1
Short inner upright	4	2	2		4	
Long inner upright			2	2		
Ringframe inner upright (no ring or strap)						2
Veneered fibreglass rail			2	1	2	
Bungee cables with fittings	2	1				

Padded bungee cover	2	1				
Rebouder rail (solid timber) with brackets	1	1				
Ring and strap						2
