Cricket bowling machine

Details

Professional model cricket bowling machine with enclosed ball delivery wheels for safety.

Variable speed adjustment between 20 and 95mph. Spin and swing bowling. Digital speed display for ball speed in mph. Balljoint adjustment complimented by Vernier adjusters for precision line and length deliveries. Electronic braking for delivery wheels allows fast changes of mode - i.e. swing to away swing.

Supplied as standard with a mains power pack to enable the unit to be used indoors connected to mains power.

At additional cost a battery pack and charger is available if you also want to use the bowling machine outdoors.
