Mini-climber

Details

The mini climber consists of a triangular base unit with six removable velcro attached blocks to provide a challenging up and down route over the obstacle.

Dimensions: 150cm x 70cm x 50cm

Made of 24kg/m3 polyurethane foam. Complies with Directive 2005/84/EC regarding early years. The mini climber is covered in an extremely durable fabric:

- flame retardant to M2 class
- phthalates free
- does not contain solvents
- does not contain VOCs
- the fabric is certified to Oeko-Tex Standard 100 (textiles free of harmful substances) and is washable with soap and water
