Parkour beam

24CUS2013XX

Details

To encourage balance and coordination skills, these beams are hooked in the Cubes and Walls with the help of a newly developed closure system and are designed to link between walls, cubes, stumps, wall bar mountings etc.

- improvement of balance and coordination skills
- material: glue-laminated solid wood
- installation with the help of welded suspensions and locking by a spring bolt system
- rubbing protection through rubber coatings

Available in the following lengths:

- 1.5m
- 2m
- 2.5m
- 3m
- 4m
