

Integral weighted hockey goals

24HUHOCXXX

Details

A uniquely designed range of integral weighted goals have been developed to meet BSEN standards for freestanding goals. The goals are safe to use at all times, eliminating the users responsibility of attaching seperate anchorage. The unique roller system allows easy manoeuvrability on all synthetic surfaces.

- 3.66m x 2.14m x 1.3m runback
- Complies with BS EN 750 safety standards without the need for separate anchorage
- Uprights & crossbars made from 75mm x 50mm reinforced aluminium
- Uprights & crossbars have an extra heavy duty 7mm thick reinforced front wall to prevent ball damage and are polyester powder coated white
- Net supports and backboards are polyester powder coated blue
- Specially designed 50.8mm diameter back tubes allow the net to hang freely eliminating ball rebound
- Backbar consisting of six individual galvanised steel rollers
- Integral net retaining system holds the net firmly in place without the use of net clips
- 460mm high reinforced aluminium backboard panels with blue noise-absorbing carpet on all inside faces
- Stainless steel bolts throughout
- Complete with a pair of 3mm thick polyethylene nets

Available in the following colours:

- Green - with green nets
- Red - with green nets
- Blue - with blue nets
- Black - wit black nets
