

Origin OC5 spinning bike

Details

Shift your indoor cycling up a gear with the Origin OC5 Indoor Cycle. This full commercial indoor exercise bike is packed with features that provide a high-quality ride that's comfortable, robust and exceptional value.

The OC5 is ideal for specialist cycling studios and other group cycling spaces where it's going to see high levels of regular use.

The aluminium alloy seat and handlebar posts are guaranteed to withstand rusting and flaking while the quiet belt drive system requires little maintenance.

The bike design is easily adjustable for all users (fore, aft and height adjustments on both the handlebars and seat) and it even features an easy-access double water bottle cage.

Magnetic Resistance provides the OC5 with a smooth and balanced feel whilst ensuring lasting durability, minimal wear and low maintenance.

The OC5 is guaranteed to deliver performance, reliability and affordability in all settings. If you're serious about an indoor cycle that performs ride after ride, the OC5 is the bike for you.

Optional console can be incorporated into the bike to provide valuable user feedback

Features:

- 21kg perimeter weighted flywheel.
- Single pulley belt drive system provides the bike with a smooth ride.
- Narrow Q-Factor of 165mm helps to replicate road cycling.
- Height adjustable handlebars and seat including adjustable fore and aft.
- Handlebars include double water bottle holder to help you workout for longer.
