Athletics landing area base units

02290A0XPB

Details

A large safety mat used as a standard base unit to create larger areas for high jump and pole vault landing areas. The internal construction is a matrix of laminated foams incorporating air gaps to soften the landing of the athlete.

The foam is covered in heavy duty blue PVC and incorporates breather panels to allow air to escape quickly on landing and for air circulation in high humidity environments.

Also suitable for use in other similar landing situations, such as for theatre, stunt work, evacuation training etc.

Available in the following dimensions:

- 1.7m x 2.5m x 400mm
- 1.7m x 2.5m x 500mm
- 1.7m x 2.5m x 600mm
- 1.7m x 2.5m x 750mm

SKU	Options	Available Colours
02290A06PB	1.7m x 2.5m x 400mm	N/A
