Weight cart for 3x3 Street Slammer

Details

For use with the 3x3 Street Slammer, the weight cart attaches to the base of the Street Slammer and provides additional counterbalance weight to give additional stability to the unit when used in extreme conditions such as slam-dunking.

The weight cart comprises:

- 8 x counterweight blocks
- 2 fixed wheels at the front, 2 swivel wheels at the back
- Black powder coated steel frame
- Weight: 325kg
