Barbell rack

Details

This barbell rack is designed to hold up to five barbells and is a great addition to your gym floor. Designed for fixed weight barbell sets, this product could also be the ideal solution for Olympic barbell storage where wall mounting or vertical storage might not be possible.

This new generation of storage racks have been designed for the highest use facilities and are manufactured to look consistent together as a full range as well as staying in great condition, month after month.

With its small footprint and sleek matt black finish, the single-sided barbell rack is a space-saving solution to keep your gym floor and workout areas tidy.

- Single sided barbell rack
- Comfortably holds five barbells
- Matte black design
- Dimensions: 740 x 800 x 1620mm (L x D x H)
