Elite Half Rack

Details

The Elite Half Rack offers a complete solution for performance strength and conditioning areas.

This is our highest specification rack. It provides a racking increment distance of 60mm which offers more racking positions to accommodate all users.

Our weight plate storage system is designed to allow the power rack to sit closer to the wall, increasing the amount of usable floor space available.

The half rack also gives you the freedom to choose the height of the pull-up bar making it accessible for any space you have.

- Distance between racking positions: 60mm
- Extremely durable - Box Section: 160 x 80 x 5mm
- Angled storage system allows for easy access to weight plates, plus allows racks to be pushed closer to walls
- Attachments available
- Platform, Power and Multi Rack options available

PLEASE NOTE: This is the rack only. Bars, weight plates, platforms and benches are not included and should be purchased separately if required
