Studio TPE Fitness Mat

OFTPEMV1XX

Details

The Studio TPE Fitness Mat is a perfect multi-purpose cushioning mat for a multitude of uses. The thick cushioning system provides a more comfortable and extended length of workout, with two different surfaces on each side, one smooth (bottom), and one textured (top) provides enough grip to suit any requirement.

Lightweight, therefore easily transported from class to class or gym to home etc.

Manufactured from TPE - a thermoplastic. The advantage of a thermoplastic is that it is a thermosetting material. This allows the Mat to return to its original flat shape - even after been rolled up for transportation.

Easily cleaned with a spray and cloth

Eyelets are 360mm apart to suit storage on a wall mounted or freestanding mat hanger

- Extremely lightweight - easy for transportation
- Textured surface gives more grip
- Cushioning system makes for a more comfortable workout
- Eyelets allow mats to hang vertically on hangers - 36cm apart
- Manufactured from TPE, a Thermoplastic - sets back to original flat shape even once tampered with
- Dimensions: 950mm x 500mm x 10mm (L x W x H)

Available in your choice of two colours:

- Blue
- Grey
