Studio Urethane Barbell Set

Details

Made from a durable urethane composite, the Studio Urethane Barbell Set is an incredibly hard wearing and versatile tool for all of your studio weights and group exercise sessions.

Each set comprises:

- a steel bar
- pair of collars
- three pairs of weight discs: 1 pair of 1.25kg - 1 pair of 2.5kg - 1 pair of 5kg.

The range is designed with a vibrant colour scheme, allowing for quick weight identification so no time is wasted changing weights during an intense studio class. The double grip allows for easy set-up and removal and racking, as well as for increased flexibility when performing plate only movements. The anti-roll design also prevents weights rolling during a class creating a safety hazard.

The urethane construction means that the weights will withstand the inevitable wear and tear that studio weight sets see as well as maintaining their clean look and feel over time.

- Strong urethane construction for enhanced durability
- Stable anti-roll plate design for safety
- Double-grip handles for versatility in exercise options
- Enhanced grip texture for slip protection

Optional storage racks for 20 or 30 sets are available to ensure your studio remains tidy and hygeinic
