Olympic weightlifting bar - 20kg

Details

20kg Men’s Olympic Weightlifting Bar to suit all gyms

The importance of quality in any Olympic bar is key and this bar provides a high quality barbell to suit any facility

The Olympic Weightlifting bar features IWF style knurling and eight needle bearings offering lifters, perfect grip and effortless speed under the bar.

This product is an excellent choice for weightlifters. The tensile strength of 215,200 psi makes the bar one of the most reliable on the market and is sure to last a lifetime. Durability in such a heavy use piece of kit is extremely important, for both quality management and turn-around of equipment over time.

Key features:

- Bushing & eight needle bearings which allows smooth rotation
- High grade Olympic bar
- Knurl Pattern: IWF Standard
- 215,000 PSI Tensile Strength
