

Matrix Performance Hybrid Cycle

MXPERFHCXX

Details

For intense workouts that are easy on the joints, nothing outshines the Matrix Performance Hybrid Cycle™ in feel, function and durability.

The 45-degree angle of our innovative command seating position optimizes ergonomics for maximum comfort and workout efficiency. The seat adjusts easily with just one hand, while low step-over height and comfortably oversized self-balancing pedals make it easy for virtually anyone to have a superior low-impact workout.

The robust components withstand intense environments and heavy use for years, and smart features like top-down leveling, an integrated transport handle and a three-piece crank with forged arms streamline service and maintenance.

Features:

- 17.5 cm / 6.9" pedal spacing
- 182 kg / 400 lbs. max weight capacity
- Self-powered options

The Matrix Performance Upright Cycle is available with a choice of four consoles:

<b>Standard LED</b> - easy to read simple display with large numbers	<b>Group Training LED</b> - large easy to read LED screen with features to assist with group exercise classes	<b>Premium LED</b> - featuring an 8,000 pixel multi-colour LED screen with WiFi connectivity	<b>Touch LCD</b> - full colour, display including Virtual sessions
