Telephone: 01484 542051 | Fax: 01484 539148 | Email: sales@contisports.co.uk

Discover an ideal mix of exercise comfort and convenience with the Vision Fitness Recumbent Exercise Bike.

A recumbent design with a walk-through frame makes low-impact workouts accessible to everyone — even older and deconditioned users — and a contoured seat and back pad provide excellent lumbar support and stability.

A step-through frame makes it easy for anyone from fitness enthusiasts to older and deconditioned users to start their low-impact cardio workout.

Self-balancing pedals with easily adjustable straps make it easy for anyone to strap in and go.

A heavy-gauge welded steel frame provides excellent stability during hard rides and durability that withstands years.

Available with two console options:

- R60 - **Standard LED Console** - A bright white LED console provides easy-to-read workout feedback to keep users on track for their goals
- R600E - **Entertainment Series Console** - large touchscreen console elevates the experience with popular apps, exclusive workout programs and streaming entertainment

With the Entertainment Series you can make your fitness centre a highlight of your offering with exercise that entertains. The E Series console will bring people in and keep them coming back with all of their favorite entertainment apps, plus exclusive HD destination footage, HIIT programs, optional live TV and more. Users can even mirror their own devices to stream whatever moves them.
