Netball post padding - competition - outdoor / indoor

08426F01AA

Details

Post padding to suit one pair of Netball Posts. These fully sealed PVC covered pads are designed to suit posts with a 50mm to 80mm diameter.

As the pads use a pre-formed foam inner core fully covered in PVC, they provide a neat consistently curved finish, unlike some pads made from flat foam that must be strapped around the posts.

The posts have a full length VELCRO® Fastener to attach the pad to the post.

The pads are full senior height and are not compatible with posts set at junior height. (We can manufacture them specially at junior height on special order at the same price as senior height - please contact us if required)

This padding is available as an optional extra to for netball posts but is mandatory to comply with the requirements of England Netball

We manufacture the padding in red PVC as standard but it is available in any of our wide range of PVC colours.

Alternatively we can provide the padding with a PVC cover fully digitally printed with any images you require such as logos, straplines, graphics. We do not provide design work so you will need to submit artwork in our specified format: A vector graphics format (e.g. pdf or eps) in a ratio of 2950mm x 645mm. If you order digitally printed post pads we will contact you to arrange the artwork. If you purchase digitally printed pads, the external PVC is fully digitally printed and the top, bottom and inside is made from a complementary colour plain PVC from our standard range.

Price is for a pair of pads to suit TWO (one pair of) posts

PLEASE NOTE: These pads are fully covered in PVC to enable them to be used outdoors. If you only intend to use the posts indoors, we offer a indoor only version of these pads made from a foam sleeve with a PVC

wraparound which is available at lower cost and enables additional and different wraparounds to be purchased at an attractive cost.
