SL Stream Box

Details

The SL Stream Box enables you to broadcast live game video on social networks with automatic live score integration from your scoreboard.

Broadcasting your live sports events to social media is easy using the SL Stream Box:

1. Connect the SL Stream Box either wirelessly (for scoreboards supplied after 2017) or wired (for scoreboards supplied after 2010)
2. Link an Android tablet or phone to the SL Stream Box wirelessly
3. Using the free Android app, link your social media account (YouTube Live, Facebook Live, Twitch, and others)
4. Film your event and the scoreboard data is overlaid on your movie automatically
