Pro-Just basketball goal

Details

The Pro-Just basketball goal is ideal for youth players and adults.

The Pro-Just includes a handle adjustment system that allows the height of the backboard and ring to be adjusted in an easy, convenient way. This system allows the height to be set anywhere between 2.3m for younger players to the official height of 3.05m.

The Pro-Just includes a superior glass imitation backboard measuring 130cm x 80cm with red trim and shooters square. For added safety the unit also includes backboard padding on the base of the board.

This model includes an 45cm steel ring with springs included beneath the ring plate. A white 12-loop nylon net is included as standard.

The backboard and ring are set on a sturdy 3-piece steel pole designed to angle away from the base for play under the backboard. The unit has integral wheels for easy movement. The base also includes a separate cover that is placed between the pole and base during play for added protection for players.

PLEASE NOTE: The base must be filled with water or sand (not included) before use
